Attach a	detailed ma	ip of your pi	oposed se	asonal chan;	ge. The map should show	existing and proposed point(s) of		

Attach a detailed map of your proposed seasonal change. The map should show existing and proposed point(s) of diversion/withdrawal, place of use and any other features involved with this application. Also, for irrigation purposes, you must indicate on the map those lands that will not be irrigated within the original place of use. Maps are Attached.

ARE THERE ANY PENDING APPLICATIONS, WATER RIGHTS OR CLAIMS RELATED TO THE SAME PROPERTY AS THE ONE PROPOSED FOR CHANGE? YES NO – IF YES, PROVIDE THE NUMBER(S): There are other permits at the ConAgra proposed site with partly overlapping places of use: SWP 16571(D) and (C), CS4-28590(B)C.

Please attach copies of any documentation that demonstrates consistent, historical use of water since the right was established. This may be included in your irrigation plan.

5. REMARKS AND OTHER RELEVANT INFORMATION:

This change request is identical to a seasonal change application filed for the 2011 season.

This change request is one of two change applications for the 2012 irrigation season that ConAgra is requesting in cooperation with Lake Wallula Vineyards. One application each for portions of Certificates S4-01228C and SWC 9974--portions owned entirely by Wallula. It is also noted that approved changes apply to both Certificates also owned entirely by Wallula. ConAgra is leasing these rights from Wallula for the 2012 irrigation season with the exception of 0.11 cfs and 16 af/yr from S4-01228C/change. Wallula is retaining these quantities to irrigate approx. 8 acres. ConAgra is filing these changes and seeking assistance from Ecology in pursuing the seasonal changes in the most expedient fashion that maximizes available rights.

In concert with this application, for the 2012 season each right is planned for participation in the trust water right program, expressly for instream flow within the benefited reaches, and as deemed necessary by Ecology. Quantities requested for seasonal change:

WATER RIGHT NUMBER	PURPOSE OF USE	GPM or CFS	ACRE-FT/YR	PERIOD OF USE
SWC9974(A)	irrigation of up to 105 acres*	0.31 cfs	79 af/yr	3/1-11/30
S4-01228C	irrigation of up to 105 acres*	0.56 cfs**	138 af/yr**	3/1-11/30

^{*}water to be applied to same 105 acres for both changes of rights under SWC9974 and S4-01228C.

The proposed water source for both applications for 2012 will be via diversion from the Columbia River. Existing station located approximately:

2100 feet S and 354 feet E from the N1/4 corner of Sec. 8, T. 5 N., R. 26 E.W.M., Benton County.

6. SIGNATURES:

I certify that the information above is true and accurate to the best of my knowledge. I understand that in order to process my application, I grant staff from the Department of Ecology access to the above site(s) for inspection and monitoring purposes. If assisted in the preparation of the above application, I understand that all responsibility for the accuracy of the information rests with me.
